Khumbolawo Mussa

COMPUTER ENGINEER

I am passionate about computers and always excited to grow my areas of expertise in computing. I bring extensive knowledge about current industry trends and best practices to your organization.

EXPERIENCE

SERVICE DELIVERY ENGINEER INTERN NEUROTECH LIMITED

June 2023 – November 2023

Worked alongside a team of interns and full-time employees in customer service, publishing and sales roles.

Received training in data center support roles. Received hands on experience servicing Oracle, Dell and IBM File and Web servers. Participated in datacenter infrastructure upgrade projects with various financial institutions including Centenary and NBS Bank.

Developed frameworks for company documentation that led to multiple deals closed (Centenary Bank – MK 15,000,000, Natswitch – MK 4,400,000 among others) and improved the company's branding.

DATA ENTRY CLERK FREELANCE

Jan 2020 - Present

Developed proficiency in various Microsoft Office Suite products including Microsoft Access, Excel and Word while offering book keeping and data entry services to a client's construction project.

The information and systems developed have improved the quality and availability of financial and inventory data related to the project over the years.
